BGE and BGMS iPad Sale

June 13th 2018

Our school district is looking to sell Boone Grove Elementary and Boone Grove Middle School's 16GB iPad Air 1s that we will no longer be using. None of our devices should be iCloud activation locked. You must meet the specifications that are listed to be considered. The devices are available for pickup as soon as the bid is complete.

SPECIFICATIONS

You must not require cords and chargers and we must not suffer any deductions for not including them.

You must come onsite to pack, pick up and transport the devices with no extra costs to us.

Flat rate pricing or lump sum pricing is strongly preferred over evaluation based pricing.

If you use evaluation based pricing, we must confirm the final evaluation before the offer can be accepted. Evaluations will not be accepted if they are lower than what we believe they should be.

You must come onsite to evaluate the devices with no extra charge to us and breakdown the evaluation

We must receive payment for the devices before they can be removed from our possession and the payment must be a cashiers/bankers check.

Devices must be picked up and paid for within 30 days of the request of the school. Failing to do so will result in forfeiting bid security and moving on to the next bidder.

Devices will not be sold individually and are required to be purchased as a whole.

The devices should already be erased, but we require that you erase any data that you find left on the devices for data privacy reasons.

There must be absolutely no costs to us throughout this entire process.

There must be no deductions for reasons other than device grades if using evaluation based pricing.

You must provide at least three references and one must be from another K-12 public school.
