U.S. Department of Education regulations require that a local education agency's (LEA's) return to in-person instruction plans must be reviewed and revised as needed every six months, must include public comment, and be posted on the LEA's public website. This will be required of ESSER III recipients for the statutory life of ESSER III, meaning plans will need to be updated every six months until September 30, 2023.

What about remaining funds?

- Dyslexia (what materials can we add to support students?)
- Science of Reading Materials and Training
- Continued contracted Curriculum Support at BGMS
- What curricular resources do we need in preschool?
- How can we support students with special needs (and teachers of students with special needs?)

This is a collaborative process with our teachers seeking out student need based on data.
